Forecast for Wednesday 14 Sep 2022

Weather: A cloudy start with a few light showers in the west, then mainly dry and bright with broken cloud and some sunny intervals. Small chance of a passing light shower across Sutherland in the afternoon and evening.

Chance of cloud-free hill tops above 800m: 30% rising 90% in afternoon.

Low cloud and visibility: Areas of cloud down to around 750m at first with lower patches near west coast, then lifting to be above summits by afternoon. Generally good visibility underneath cloud but some reductions in early showers in the west. The odd summit patch in the evening.

Met Office Aberdeen Meteorologist's View
Note the lowering summit temperatures.

Forecast for Thursday 15 Sep 2022
Weather: Sunny intervals and scattered showers, possibly on the heavy side but these will be brief and some will stay dry. On the highest summits the showers will fall as sleet but not expected to settle.

Maximum wind: North or northwest 25 gusts 35mph.

Chance of cloud-free hill tops above 800m: 80%

Low cloud and visibility: Cloud mostly above tops and visibility very good, but in any heavier showers, patchy cloud to 800m and briefly moderate or poor visibility.

Temperature: **Glens:** Plus 5 around dawn rising to Plus 14 in the afternoon.
At 800m: Plus 5 Celsius falling to Plus 3 in the evening.
Freezing level: Above the summits falling to 1000m in the evening.
